ABOUT ME

I'm a Mechanical Engineer passionate about project management, backed by solid training from UERJ, one of Latin America's top universities. My journey's been diverse, including teaching German and postgrad studies in railway engineering and industrial automation/electronics during the pandemic.

Now, I'm in Germany, diving into a Master's in Software Engineering at the University of Europe for Applied Sciences. I'm eager to explore part-time opportunities, like internships or roles, to further develop my software engineering skills alongside my studies.

WORK EXPERIENCE

01/01/2019 – 01/01/2021 Saquarema, Brazil

Project manager Erelitha Jóias

- Planning and control of the schedules, defining the tasks and stages of the project execution with the inclusion of the start and end dates of the activities.
